"Introduction", the Yellow: Quintessence of the nineties (New York: Doubleday, 1964), p. p. His publication, Oscar Wilde rejected the yellow book as "non-yellow at all". [5] In the Romantic 90s, Richard Le Gallienne, a poet identified with the new literature of decadence, described the yellow book as the following: "The yellow book was certainly novel, even surprising, but except drawings and decorations By Beardsley, who, seen so for the first time, has not unnaturally influenced most people as immediately surprising, repellent and fascinating, it is difficult to realize why it should have seemed so shocking. ^ Dowling, Linda. XVI. The lane turned to the drawings of the Beardsley before each publication as Beardsley is known to hide inappropriate details in his work. ^ Evelyn Waugh, put out more flag. Although the critics have taken into account that the Quality of its content has decreased after Beardsley on the left and that the yellow book has become a vehicle to promote the work of the authors of Lane, an extraordinary standard You elevated both in art and in the literature it was maintained until the periodic publication ceased in the spring of 1897.
